Safe Hose Assemblies

FOR ALL PETROLEUM & CHEMICAL TRANSFER APPLICATIONS

With in-house fabrication, crimping & welding facilities, we offer a variety of reliable hoses for your petroleum and chemical applications such as:

- In-Plant Transfer Hoses
- Tank Truck Transfer Hoses
- Rail Car Loading/Unloading Hoses
- Steam Hoses
- Water Hoses
- Gas/Cryogenic & Air Hoses

maximize production. reduced downtime. protect your workforce

Reduce the risk of hose failures through routine hose inspections, testing and certification programs. Our OnGuard™ hose management services include testing, tagging and traceability of your hoses from "cradle to grave". Learn more online at www.hosesafety.com

YOUR FIRST LINE OF DEFENSE AGAINST

- Hose Failures
- Leaks/Spills
- Costly Downtime
- Accidents
- Injuries
- OSHA/EPA Fines

Custom Gaskets
Roll sheet goods, custom gaskets, metallic spiral wound gaskets, sponge products, rubber stripping, joint sealants, anti-vibration pads, matting. EPDM, PTFE/Teflon®, Red Rubber, Silicone, Neoprine, Viton, Non-asbestos.

engineered safety solutions for product transfer

loading arms & gangways
- For chemical transfer operations
- Available in carbon steel or stainless, aluminum, in many styles and sizes.
- Swivel Joints
- Specialty Loading Systems
- Top or Bottom Loading Systems

Dry disconnects & breakaways

HOW THEY WORK:
Dry Disconnects have a mechanism to shut off flow before disconnect to virtually eliminate spillage from hose or pipe. If accidentally disconnected, many auto shut-off. Styles use different mechanisms, materials (316 SS, Hasteiloy, Poly, Aluminum, Brass), seals & connection types.
